L. F. STEPHENSON  
Secretary  
March 13-20-27, April 3.

**Mountain Erosion Source Of Beach Sand, Not Sea**

The sand you romp on at the beach comes not from the depths of the ocean, as many persons believe, but from streams that carry it down from California's coastal ranges.

So says Dr. U. S. Grant, professor of geology on the Los Angeles campus of the University of California. Dr. Grant has made comprehensive studies of the source and transportation of sand in the Santa Monica Bay region.

Measurements of the silting rate of reservoirs and the transportation of sand by ocean currents indicates that the Santa Monica Mountains are being eroded at a more rapid rate than adjacent land because of steep slopes, flash floods, and burned-over areas.

When carried to the sea by streams, tiny particles of rock which form sand are transported by prevailing north-to-south currents along shore. The turbulence produced by the waves is necessary to start the sand moving. About 10 per cent or more of the time, however, when a sea swell comes from the south, the direction of the current reverses, and the sand is carried from south to north.

Such information has practical value, points out Dr. Grant, in building breakwaters, piers, yacht harbors, and other shoreline structures.

**'Student Prince' Coming To L.A. Biltmore April 3**

The vogue for good musical entertainment is never ending and so "The Student Prince," now on its 21st birthday tour, should enjoy its 11-day engagement at the Biltmore Theatre commencing Thursday, April 3. Performances will be given every night. Matinees Saturday at 2:30 p. m. and Sunday at 5:00 p. m.

Dressed, directed and staged anew, this favorite operetta has proved itself by the test of time to be one of the finest of all light operas, as well as one of the most popular musical productions ever to be presented throughout the world, comes here bearing in its wake new acclaim and new successes.

The well-loved "Golden Days," "Serenade," "Deep in My Heart, Dear," "Just We Two" and "Student Days," are a few of the great songs hits in the marvelous Sigmund Romberg score. Many of these songs are assigned to the male chorus, one of the big features of this production of "Student Prince."

Featured in the large and excellent cast are Frank Hornaday as Prince Karl Franz, Adelaide Bishop as "Kathie," Detmar Poppas as "Lutz," John Mooney as "Dr. Engel" and Nina Varela as "Grand Duchess Anastasia."

**Association Figures Show School Cost Up**

The \$64,696,303 property tax levy for the school districts in Los Angeles County for the current year is 24 percent higher than the \$52,078,533 levied for 1945-46, California Taxpayers' association said today, making public the second part of its study of local tax levies.

Local levy for the school districts in the county was \$45,906,292 for prewar 1941-42. Statewide local tax levies for school districts for 1946-47 are 27 percent higher than they were for 1945-46. Last year it was \$131,965,112. War-time low was \$102,993,903 for fiscal 1943. Levy for prewar 1941-42 was \$107,598,780.

In addition, direct state support of school districts for this year is \$101,436,961. Last year it was \$96,157,108. In 1942-43 it was \$79,717,197.

For the coming school year, the governor's budget sets up \$161,486,705 for state public school support—59 percent more than for last year. The \$161,486,705 reflects both the increased state support of schools voted by the people at the November, 1946 election and the increasing school population resulting from the large number of births during the last decade.
